

All,

I also strongly oppose any removal or relaxation of ownership rules. Current corporate ownership has stifled debate and free flow of dissenting points of view. Many politically "charged" stories go with little mention or no real coverage at all. Increasingly, it appears that anything that threatens the well connected corporate owners and their politocos is not given adequate coverage. Already, reporting is too homogenous and we must make efforts to stop and even reverse this decline in information dissemination. In the name of support for a truly free (and accurate) press I urge you to reconsider any ruling which would ease media ownership limits. Thank you, on behalf of Americans everywhere.

Mark Martorana
